

## GROUPS OF EXPERTS

1	Microbiology
6	Biological and Biotechnological products
7	Antibiotics
9	Inorganic chemistry
9G	Medicinal gases
10A	Organic chemistry - Synthetic semi-synthetic products
10C	Organic chemistry - Synthetic semi-synthetic products
10D	Organic chemistry - Synthetic semi-synthetic products
11	Organic chemistry - Natural, semi-synthetic and synthetic products
13A	Herbal drugs and Herbal drug products
13B	Herbal drugs and Herbal drug products
13H	Fatty oils and derivatives, polymers
14	Radiopharmaceutical preparations
15	Human vaccines and sera
16	Plastic materials, plastic containers and closures

## WORKING PARTIES

ALG	Allergens
BET	Bacterial endotoxins test
CE	Capillary electrophoresis
CEL	Cellulose ethers
CLAR	Clarity and degree of opalescence of liquids
CND	Conductivity
COL	Colour instrumental
CRB	Carbohydrates
CRP	Production and compounding of radiopharmaceutical preparations
CST	Chromatographic separation techniques
CTP	Cell therapy products
DIA	Dialysis solutions
EXT	Extracts
FRC	Functionality-related characteristics
GEL	Gelatin
GLS	Glass containers
GTP	Gene therapy products
HCP	Host-cell proteins
HFA	Propellants
HOM	Homeopathic raw materials and stocks
ICP	Inductively-coupled plasma spectrometry
INH	Inhalations
LEC	Lecithins
MAB	Monoclonal antibodies
MQH	Microbiological Quality of Herbal Drugs
MSL	Alkyl mesitates
MYC	Mycoplasmas
NBC	Non-biological complexes
NMR	Nuclear magnetic resonance spectroscopy
PAT	Process analytical Technology
POW	Powder characterisation techniques
PRP	Precursors for radiopharmaceutical preps.
PST	Pesticides in herbal drugs
SIT	Second identification testing
STA	Statistics
SUT	Sutures
TCM	Traditional Chinese Medicines
VIT	Vitamins
VSADM	Vibrational Spectroscopy and Analytical Modelling
WAT	Water for pharmaceutical use
WXT	Water for the preparation of extracts
